BRINGING BACK THE BALTIMORE CHECKERSPOT

The MA & PA has joined the Checkerspot Corridor Team to help bring more Baltimore Checkerspot Butterflies to a north/south corridor of land that stretches from Eden Mill Nature Center, through the Forest Hill MA & PA Trail, on to Harford Glen Educational Center and the Anita C. Leight Estuary Center. The team planted the Checkerspot's favorite food, White turtlehead, and deer-proofed it all with fencing.
